The Challenge Peguera Mallorca conforms to the approved rules and regulations by the **Spanish Triathlon Federation (FETRI)** and the **WORLD TRIATHLON**.

Participants of the event are insured by the generic accident insurance of the **FETRIB** on the day the participant takes part in races.

For a smooth and sporty course of the event, we feel compelled to draw your attention to some important rules once more: Participation in the event is at the participant's own risk! The participant grants indemnity to the organisation against all liability and claims possibly resulting from participation in the event.

The officials have the right to disqualify participants for reasons of misbehaviour before, during or after the triathlon. Furthermore, the race directors have the right to withdraw participants from the race for the latter's personal protection, e.g., for medical reasons.

You shall adhere to the directions, instructions and rules of the volunteers and the officials under penalty of disqualification. These include, but are not limited to:

- **No drafting allowed** on the bike course.
- Throwing trash **ONLY** in the designated trash zones.

KEEP THESE RULES IN MIND:

- Announcement of the organizer.
- General terms and conditions for participants.
- Competition regulations of the organizer.
- Road Traffic Regulations on the entire bike course.
- Competition regulations of the Spanish Triathlon Federation (FETRI) and the WORLD TRIATHLON - incl. Anti-Doping-Code, Sports Regulations, Legal and Procedural Regulations, Disciplinary Regulations.

RESPECT THE RULES, FOCUS ON THE CHALLENGE

DRAFTING RULES

Challenge Peguera Mallorca is a strict non-drafting race. It is your responsibility to maintain the correct distance from the athlete in front of you:

Drafting Exceptions: You may temporarily enter the draft zone only for safety reasons, at acute turns, or 100 meters before and after an aid station or transition area. Once overtaken, an athlete must immediately drop back out of the draft zone within 15 seconds before attempting to re-pass.

Your safety is our absolute priority. Medical staff and resources will be available throughout the course and at the finish line.

DO NOT BE AFRAID TO ASK FOR HELP. You will NOT receive a penalty or be disqualified for receiving a medical evaluation or for resting.

- **During the Swim:** If you feel unwell or overwhelmed, raise and wave your hand to alert the water safety team. You are permitted to grab onto a kayak or paddleboard to rest, as long as you do not use it to make forward progress.
- **During the Bike/Run:** If you need medical assistance, stop and inform a volunteer, official, or another athlete so they can alert the medical team. Provide your bib number to initiate care. Helping a fellow athlete in medical need will not result in a penalty.
- **Write any important medical information on the back of your race bib.**

Drop Out Protocol: If you withdraw from the race at any point, you **MUST** inform a race official or staff member immediately. If you do not communicate your withdrawal, an emergency search process will be initiated at your expense.

Note: Even if you drop out, you cannot collect your bike until the official Check-Out opens on Saturday afternoon.

MEDICAL CHECK-UP RECOMMENDATION

CHALLENGE PEGUERA MALLORCA organization highly recommends undergoing these tests PRIOR to race day, especially if you haven't had one within the last year. D.2.1

SWIM COURSE EXPLANATION

Dive into the stunning crystal-clear waters of Torà Beach. To make the swim more manageable, safe, and spectator-friendly, the 1.9 km course is divided into two laps with a short run on the beach in between.

Here is how the circuit works:

LAP 1 (950m): You will sprint from the sandy shore into the water, swim 475 meters out to sea, and 475 meters back to the beach.

THE SAND DASH: Upon reaching the shore after your first lap, you will exit the water and make a short, energizing dash across the sand while the crowd cheers you on.

LAP 2 (950m): You will dive right back into the water to embark on the second 950-meter out-and-back loop.

SWIM EXIT & T1: Once you've conquered the second lap, you will exit the water for the final time, cross the finish arch, and head directly to the Transition Area (T1), located just 150 meters away.

Why this layout? This compact, innovative design keeps you **closer to the shoreline for better safety and control**. It also creates an electric atmosphere, allowing your family and fans to get an up-close view of the action and motivate you halfway through the swim!

 **SWIM CUT-OFF TIME: 10:35 h.** Athletes who fail to comply with this time limit will be disqualified and will not be allowed to continue the race.

D.2.2

SWIM CIRCUIT FAMILIARIZATION AND WARM-UP:

Swim Familiarizations: You are on Torà beach, so you can swim as long as there is no red flag.

Warm-up: A short warm-up in the water is permitted before the start. Please leave the water when instructed by the officials (from 8:20 to 8:45 h).

D.2.3

SWIM START:

The swim start will be carried out in batches, selecting the participants by age groups. There will be an interval of time between each start in order to make the segment run smoothly. We use a Wave Start system to ensure a smooth flow. Your individual race time begins only when you cross the timing mat at the water's edge.

IMPORTANT: During the swim, you must wear the official swimming cap that you received at registration. Remember that the tattoo you received at registration must be attached to your arm/shoulder.

- Be at the swim start zone at least 10 minutes before your start time. There will be a timing mat to cross, so you will be registered as a “starter” in the race.
- **Safety First:** There will be buoys to mark the swim course. Should you need any help, **draw attention by waving your hand above your head.** There will be kayaks, paddleboards, lifeguards, and marshals to assist you. Tip: You are allowed to hold on to a kayak or paddleboard to rest and calm down, provided you do not use it to make forward progress.
- If you are not the best swimmer, take it easy, let the fast ones pass by, and then stick to your own pace and enjoy the pristine waters.
- No fins, paddles, snorkels, or other artificial floating devices are allowed!
- Face, hands, and feet must be completely uncovered at all times.
- When entering the water, please make sure your timing chip is securely fastened to your left ankle.

**“IMPORTANT,
Safety First”**

D.2.5

OPTIONS IN CASE OF BAD WEATHER

Athlete safety is our top priority. If the swimming sector must be cancelled due to severe weather or sea conditions, the race will continue with one of the following two options:

Option 1 (Duathlon format): Depending on the weather and environmental conditions, the swim segment can be replaced entirely by an initial run segment, without changing the rest of the race.

Option 2 (Modified Swim): The organisation may alter the swimming sector by adding more laps or modifying the entry/exit points, provided the bad weather does not affect the entire beach area.

D.2.6 WETSUIT RULES (FETRI)

Wetsuit use is strictly governed by the Spanish Triathlon Federation (FETRI) rules. The final decision regarding wetsuit usage will be announced by the Head Referee **1 hour before the start**, based on the official water temperature.

DISTANCE:
87,3 KM

ELEVATION GAIN PER LAP

LAPS:
2 LAPS (43,7)

The bike course consists of two laps totaling 87 km. It is a highly technical, mixed circuit that combines demanding mountain climbs with fast, flat coastal sections.

D.4.1

THE ROUTE BREAKDOWN (LAP)

The Mountain: You will leave Peguera towards the foothills of the Serra de Tramuntana. After a short climb at Coll des Trulls, you will pass through the picturesque villages of Es Capdellà and Calvià. Pacing is key here: expect around 500m of elevation gain in this first section.

The Coast: After the fast Son Pillo descent, the route flattens out. You will ride through some of the most famous tourist resorts, including Magaluf, El Toro, and Santa Ponça. New updates: Prepare for a fast loop in Nova Santa Ponça and stunning views at the Malgrats viewpoint.

The Final 5K: Leaving Santa Ponça, the road surfaces will vary (including a shared pedestrian/bike pathway). It ends with a highly technical descent featuring a sharp turn that leads you back to Peguera to start your second lap or head into T2.

D.4.2

BIKE FAMILIARIZATION & TRAINING

The bike circuit will be marked a week before the race, and you will have maps and GPX files available to study the route. It is also possible to experience the bike course virtually on [Rouvy](#).

⚠ IMPORTANT FOR PRE-RACE TRAINING: Until race day, you will be sharing the roads with regular traffic. There are specific parts of the Challenge Peguera Mallorca bike circuit that run along roads in a prohibited direction for normal traffic. Therefore, when training on the circuit before the race, you must use alternative roads for these sections and strictly respect all traffic rules. On race day, the entire circuit will be closed to traffic and regulated by police and officials.

CRITICAL BIKE RULES (QUICK REMINDER)

Please keep these critical rules in mind during the race to avoid penalties or disqualification:

- **Please keep Right: Always** ride on the right side of the road (except on sections where traffic flows in the opposite direction) to allow other athletes to pass safely on the left. Crossing the central white line is strictly forbidden.
- **Traffic Crossings (Safety First):** Although the roads are closed with cones and signs, regular traffic may be crossing the bike course at specific relevant places, guided by police officials. For your own safety, pay extra attention when crossing roads, making turns, or passing aid stations.
- **No Drafting:** Maintain your 12-meter distance (20 meters for PROs). Drafting rules and penalties are strictly enforced (**see Section C for full details**).
- **Headphones Prohibited:** MP3 players, mobile phones, and all types of headphones are strictly forbidden throughout the entire race.
- **Race Bib & Stickers:** Your bib number must be clearly visible on your BACK at all times. Ensure your bike seat-post sticker and the 3 helmet stickers remain properly attached during the entire ride.
- **No Outside Assistance:** Please inform your family and friends that it is strictly prohibited to follow athletes on bikes, cars, or scooters.
- **Cut-off Times Reminder:** Remember you must clear Km 60.5 by 14:00 h and arrive at T2 by 15:15 h.
- **Obey Officials:** Athletes are expected to follow directions and instructions from race officials, marshals, police officers, and volunteers at all times.
- **Penalties:** If you receive a Blue or Yellow card from a referee, you must stop at the Penalty Box located near the start / finish of the circuit.
- **After completing the 87 km ride**, you are on your way into the transition area (T2). You need to dismount your bike before passing the timing mat (dismount line): the dismount line will be clearly indicated.

TRANSITION 2 (BIKE TO RUN)

Well done! After completing the bike course, you are on your way into the transition area (T2) to get ready for the 21.1 km half marathon. You are almost there!

T2 FLOW - STEP BY STEP:

1. **The Dismount Line:** Please note that the dismount line coincides with the mount line. You must get off your bike before stepping on the timing mat/line. A race official will control the maneuver.
2. **Enter T2:** Run or walk with your bike beside you into the T2 entrance.
3. **Rack your Bike:** Put your bike back in the exact rack associated with your bib number.
4. **Grab your Bag:** Pick up your Orange Bag (After Bike) from the rack that coincides with your bib number.
5. **Change Gear:** Head into the transition tent to make the necessary changes (running shoes, visor, etc.) for the run sector.
6. **Pack your Cycling Gear:** Place all your cycling gear, including your bike helmet, back inside the Orange bag.
7. **Hang it & Go:** Hang the Orange bag back on your numbered peg. Leave the tent and head to the T2 Exit to start the run!

CRITICAL RULES IN T2:

1. **Cycling Shoes:** You can ONLY leave your shoes on the bike as long as they are firmly attached to the pedals. If you take them off your feet inside the tent, they must be placed inside the Orange bag.
2. **Clean Transition:** Absolutely no material can be left on the ground or on the seats provided in the tent. Everything used in the cycling sector (helmet, glasses, etc.) must go inside the Orange bag. Failure to keep your area clean may result in a penalty.

THE PASTA PARTY EXPERIENCE: TASTE PEGUERA

We believe that a great race deserves a great meal, and here in Calvià, we do things a bit differently! Instead of gathering all participants in a single dining hall, we want you to choose exactly where and with whom you eat. That's why we've partnered with the fantastic restaurants of Peguera and Cala Fornells to offer you a unique, 'roaming' Pasta Party.

Inside your race kit—which you can pick up on Thursday or Friday at the Expo—you'll find an exclusive **€12 voucher**. This ticket can be used to deduct €12 from your total food and drink bill at any of our partner restaurants between **Thursday 15th and Sunday 18th October**.

The best part? Vouchers are stackable! If four athletes dine together, you can combine your tickets for a €48 discount. You can even give your voucher to a friend or family member who isn't competing so they can enjoy the discount too.

Check the official list of participating restaurants, book your table, and enjoy the very best of Mallorcan cuisine!

[RESTAURANTS](#)

At Challenge Peguera Mallorca, we are deeply committed to sustainable development. We believe that our event must go beyond sport; it should incorporate a concrete plan of action that contributes to the social development of our community while actively reducing our environmental footprint.

We embarked on this path a few years ago, focusing on reducing single-use packaging and minimizing the use of paper and plastic. For 2026, we are introducing new initiatives and maintaining those that have proven highly effective. Here are some of our most significant actions:

OUR COMMITMENT TO THE COMMUNITY & ENVIRONMENT

Empowering the Youth: We are developing a program to promote healthy lifestyle habits and physical activity in collaboration with local public schools.

Eco-Friendly Materials: We have digitized our event information (magazines, racebooks, flyers) and are producing race materials, such as your t-shirts and backpacks, using biodegradable and sustainable materials.

Supporting Local Economy: We partner with local businesses and suppliers for the provision of key race materials (food, timing, infrastructure) to generate work for local companies and coordinate essential services with the community.

Community Involvement: We actively involve local groups, including sports clubs and neighborhood associations, in the management and success of the event.

YOUR PART OF THE WORK

These actions are part of a continuous evaluation plan, but we cannot do it without you. We hope you can help us with these small but powerful actions during your stay:

- **Leave No Trace:** Take your trash with you! Never throw gel and bar wrappers on the road. Store them in your tri-suit and dispose of them strictly at the designated points.
- **Protect the Mediterranean:** Our sea is breathtaking, so help us keep it that way. Please leave nothing behind on the beaches or in the water.
- **Recycle Properly:** Use the recycling bins around the venue properly, and use the specific containers at the aid stations to discard leftover liquids and food.
- **Explore on Foot:** Walk a lot! The varied scenery of the coast and mountains has earned Calvià a well-deserved reputation as a premium hiking destination.
- **Consume Local & Embrace the Culture:** In Calvià, you have amazing options for accommodation, dining, and shopping. You're in Mallorca—enjoy our culture! Dive into our wonderful gastronomy, spectacular cultural events, and abundant heritage. Take advantage of your stay to live this experience to the fullest.

THANK YOU SO MUCH FOR YOUR HELP!
Together, we make a great team.
